

# Are you concerned with being compliant with your regulatory agency's cyber incident response 4-day deadline?

ACIRM manages each cyber incident as a project. Covers the complete cyber incident response life-cycle.

## ACIRM+ helps organizations to...

1. Speed up regulatory compliance
2. Be compliant with all NIST SP 800-61R2 requirements
3. Generate reports on the fly
4. Improve readiness for audits
5. Improve cyber incident response timeliness
6. Improve leadership visibility and reporting
7. Improve collaboration and communication
8. Improve risk mitigation by identifying and addressing issues sooner
9. Set up a continuous process improvement program
